

MOEED NAIK

UI/UX Designer · Product Design

moeedkhalid22@gmail.com · +92-307-1768667 · Lahore, Pakistan

PROFESSIONAL SUMMARY

UI/UX Designer with hands-on, end-to-end product design experience across SaaS, healthcare, fintech, and B2B/B2C platforms. Combines user research, wireframing, prototyping, and interaction design to ship clean, accessible interfaces including a SaaS redesign that lifted user retention by 25% and direct UI flow planning for international (US/UK) clients.

KEY ACHIEVEMENTS

- Redesigned a corporate SaaS platform, improving visual hierarchy and increasing user retention by 25%.
- Engineered the UI/UX for 'IQPrompt,' an AI-based SaaS platform, from the ground up with a clean information architecture.
- Delivered role-based, multi-user healthcare product experiences (MNIMI, CUIDAAPR) improving accessibility for patients and caregivers.
- Designed a government-funded fintech application (Balochistan e-Wallet) to improve financial accessibility for users with varying digital literacy levels.
- Managed UI flow planning directly with international clients, converting complex business requirements into high-fidelity design solutions.

WORK EXPERIENCE

INOTEXEL, Lahore

Associate UI/UX Designer

- Spearheaded the redesign of the corporate SaaS platform, increasing user retention by 25%.
- Engineered the 'IQPrompt' AI-based interface from scratch, ensuring clean information architecture.
- Orchestrated UI flow planning for international clients (US/UK), turning complex requirements into high-fidelity designs.

IT Extension, Lahore

UI/UX Designer

- Architected a B2B–B2C Snooker Management System, streamlining booking and operational workflows.
- Designed a dual-interface reservation system for school logistics, prioritizing accessibility for parents and drivers.
- Developed a mobile healthcare application UI in Figma, resolving mismatches between design and frontend capabilities.

Developer.X, Islamabad

UI/UX Designer Intern

- Pioneered the design of the company's main website, improving aesthetic and navigation performance.
- Launched an integrated blogging platform focused on readability and responsive design standards.

TxLabz

UI/UX Intern

- Learned to design mobile layouts and native mobile interfaces, building foundational app-based UI/UX skills.
- Contributed to a government-funded project, assisting with interface design work.

SELECTED PROJECTS

IQPrompt (SaaS AI Platform) — End-to-end UI/UX from research to high-fidelity Figma prototyping; refined accessibility for prompt management.

Aeonian School Transport App — Dual-interface (driver & parent) system with role-based dashboards, improving safety and navigation.

MNIMI Healthcare Platform — Multi-role healthcare ecosystem with role-based dashboards, standardizing UI for better communication.

CUIDAAPR Healthcare App — Patient–caregiver interface with seamless care-management flows, increasing accessibility.

Mehman Nawaz (Food Sharing) Location-based platform connecting donors and recipients to reduce food waste.

Balochistan e-Wallet App — Government-funded fintech app; high-fidelity wireframes simplifying transactions for varied digital literacy.

CORE SKILLS

UX: User Research, Information Architecture, Wireframing, Prototyping, Interaction Design, Usability Testing

UI: Visual Design, Interface Design, Responsive Design, Accessibility, Design Systems

Products: SaaS, Healthcare, Fintech, Marketplace UX, B2B/B2C Platforms, Mobile Apps

Collaboration: Client Communication, International Client Coordination (US/UK), Project Management, Problem Solving

Software: Figma, Web Development (React.js)

EDUCATION

BS Computer Science — The Superior University, Lahore

CGPA: 3.4

Sep 2025 – Present

Intermediate in Computer Science — KIPS College, Lahore

Grade: A

Aug 2022 – July 2024
